3. Future Plans

- 3.1. Final Project presentation.
- 3.2. Adding new functionalities as per user's requests given in the feedback.

4. Problem faced

- We faced multiple challenges using ReactJS and firebase for our implementation. Especially the part in which we had to query on the firebase database was quite tough and we faced much difficulty in getting the proper query output.
- Finding a user appealing design for the home page of the application was really difficult. It took much longer for the team to agree upon a satisfactory design.
