3. Future Plans

- 3.1. Project presentation in front of limited potential customers and taking feedback.
- 3.2. We are planning to implement split options (Owe option and split option) onto our web-app.
- 3.3. Improving the Interface and implementation
- 3.4. Deployment of our web app through firebase.
- 3.5. Improving the usability of product keeping in mind the feedbacks received from users for the prototype
- 3.6. Adding new functionalities as per user's requests given in the feedback

4. Problem faced

- We faced multiple challenges using ReactJS and firebase for our implementation.
- Finding a user appealing design for the home page of the application was really difficult. It took long for the team to agree to a satisfactory result.
- The software used to prepare the UML diagrams was really buggy and took us longer to prepare the diagrams digitally.
